**Statement of Support**

Recently the future of Our Lady of the Assumption Catholic School, New Lowell, Ontario, the only faith based school in Clearview Township, has come up for Pupil Accommodation Review. The fact the Our Lady of the Assumption School building does not have a gymnasium or auditorium renders it inadequate for today's needs. To add such a facility to the present building along with the necessary renovations is cost prohibitive. It is more efficient to build anew.

Therefore, in order to lay to rest any notion that it is acceptable that our children be bussed to other institutions outside of our community, we ask you to sign this statement. In so doing you will also be indicating your profound preference that a new Our Lady of the Assumption School be built in Clearview Township ensuring that our children receive nurture in Catholic Christian values along with the distinctive values of our Clearview community.

NEW LOWELL, ON L0M1N0

May 17/2010

May 15/2010

Our Lady of the Assumption School provides a healthy community atmosphere for the rural children in the Clearview area. Closing the school and grouping the children into other schools to save money would not only damage the well cared for morale of the students, but of the reputation of the Catholic community. The faculty and students work hard to build strong relationships and spread those values among the community. The growing population of the area can only mean a need for the school to stay.

I only hope that you see the need to invest money to expand the school rather

than shutting it down.

A Catholic education provides good morals and ethics as well as positive work habits. Our community would only benefit. Also, the attraction to the area for residence to buy homes in the area would be negatively impacted with the removal of the school.

Please consider the people and children and not the money. We need this school.

Patti Armer

Psalm 108:43

Who is wise? Let him give heed to these things,  
And consider the lovingkindness of the Lord.

The children will shine.

To Whom it may concern.....

I am a parent of two children, one which is attending Our Lady of the Assumption School right now and the other would be attending the school next year, if still possible. I live in a little town called Glencairn. We have been given the option of school closure or spreading our children throughout schools in other communities. We moved from a busy city Mississauga to this little town that nobody has ever probably heard about in the big city. We moved out here five months after we had our daughter, (she is 5.5 now) so that she and now her brother would be raised in a quiet safe little town which we love so much, just like the school Our Lady of the Assumption. We especially like this school because it is so small and it feels like a little small private family school for our Catholic Children. I was so worried about my daughter on her first day at the school especially because she didn't know a word of English, but instead she came back and I never seen her happier. The teachers are great and helpful she picked up her English language in no time. She loves going there and seeing her friends and her teachers that helped her learn English and now preparing her into grade one.

The other important reason why we love and really need this school in Clearview is that we as a family are big Catholic believers and it is really important to me and my husband that our children are raised Catholic just as I and my husband were raised Catholic.

If by any chance the school does close down there is no way that my child would ever attend a public school just because we can't build a new school for our children. Before we heard about Our Lady of Assumption School last year when my daughter was 4 we use to drive her 3 times a week to Mississauga to a small Private Catholic school so that she can get schooled. Some people said it was crazy but the education that was provided for her was amazing, and the results were even better. Once again it was a small school and the teachers had more one on one time with their students and the effects were mouth dropping, just like the school she is in now Our Lady of the Assumption. Our children deserve the best, by building a new catholic school for them that would just be the icing on the cake. I believe that the early and ongoing stages of their development is crucial and will stay and foster their lives forever.

Thank you for your time,

Marta Jarmoszka and  
Rafal Jarmoszka
